## Who Is This Training For?

Reiki Level 2 training is designed for those who are ready to work with and explore the emotional and mental bodies in the healing setting. This course addresses methods that can be applied for one's self and others to heal thought and emotional patterns in support of greater well-being. The Reiki Level 2 symbols also enable the practitioner to send healing outside the limitations of time and space.

## How do I prepare for the class?

The most important thing you can do is to set your intention to accept this training and the attunements with an open heart and mind. If it has been some time since your last Reiki class, you may want to review the course materials so that it is fresh in your mind for this class.

Additionally, some people feel it is important to stay away from sugar, caffeine, alcohol, red meat, and recreational substances at least 3-7 days prior to the class. If you feel this is an appropriate path for you, by all means do what feels right.

Meditation, rest, and spending time in nature are all very good ways to center and connect to your Higher Self before and after the training.
